INTERNATIONAL CERAMIC DESIGN SYMPOSIUM "LIGHT OBJECTS" 14 September - 9 October, 2015

The symposium system was established in this part of the world with the aim of bringing artists together to work, to learn from each other and to create cultural links and exchanges during a closed political time. Symposia were held regularly throughout the former Soviet block, usually for a six week period in the summer months. Many countries are no longer able to run symposia and this was the founding aim of the International Ceramics Studio - to have a year round programme where artists can work together in a mutually supportive and creative environment.

It is a prolonged period of intensive practical work where artists work around a theme, creating work and exchanging ideas, philosophies and practices. There will always be a complimentary series of slide shows and talks by each of the artists.

Creates an atmosphere of creativity and learning between artists and designers of a younger generation and the more established international invited artists.

SYMPOSIUM ARTISTS

BILL BROWN Great Britain
MARIA CONNOLLY Ireland
