

## ILONA ROMULE : CHINA PAINTING

### TOOLS FOR CHINA PAINTING WORKSHOP

Porcelain blank White-ware and basic colors and few lusters (not Gold/Platinum) will be provided. If you will want more colors and lusters and Gold/Platinum - you can purchase individually from Ceramics Supplies here in Kecskemet.

- For painting we will need round soft, but springy and very pointed brushes - SABLE or SYNTHETIC (sizes from 00 up to 4 - individual for each colour). Squirrel hair brushes are not suitable for the Turpentine we will be mixing colours with and especially for lusters. You can buy brushes here in Art Store if you don't have.

- Fine pointed Calligraphy nib/pen - very difficult to find anywhere the right one. Must be made from stainless steel (silver colour), very hard but just a little springy, with sharp pointed end. (when you push it against table - it does NOT split open easily into two parts). In USA I was buying them in Art stores: N#291 (no name of the company), but could be another number as well - what is important are the above mentioned qualities. German company "Brauser" are good too - N# 511. If you find any of them - please, buy as many as you can (20-30 pieces)- other participants or studio will buy from you.
